Training Course 3 – Rural Re-establishment

Presenter: Rachael Musgrave-Evans LS

The training courses being offered by our office are primarily designed to provide surveying graduates with some training and support towards becoming registered as a Licensed Surveyor (graduates do not need to be in a formal Professional Training Agreement to be eligible to apply). These sessions will also suit people with a TAFE qualification (surveying) or those who have some level of work experience as a cadastral surveyor. These courses can also provide additional guidance to recently Licensed Surveyors.

Course Details:

This course will be run as a rural re-establishment computational workshop exercise based on field work from our office. The course will be run over two separate days. The first session will be used to go through the survey information and field work and get participants started on their computations. The second session will be run four weeks later. The four week break will allow participants time to work on their computations before returning for a second session. The second session will be used to go through each participants re-establishment giving feedback and guidance.

This course will also cover the re-establishment principles behind:

- Government Road alignments
- Crown boundaries
- Property Law Act 1958

Pre-requisites:

- Participants need to hold a surveying degree/diploma or have had some experience working as a cadastral surveyor. Licensed Surveyors are also welcome to register.

Cost:

- \$750 plus GST (capped at 20 places)
- Morning and afternoon tea provided; lunch is not included (many options for lunch available around venue)

How To Register:

- Scan the QR code to register
- For more information visit megc.com.au/training-courses
